Tank capacity (l)	2.4-2.2
Length of cord access. (m)	7.5
Steam pressure (bar)	3.2
Weight without access. (kg)	7.5
Dimensions (L x W x H) (mm)	480x305x265
Frequency (Hz)	50-60

## Details

### Description

The DE 4002 is a steam cleaner for professional applications. One special feature of this unit is the continuous replenishment of the water level in the boiler via an additional water tank. This allows the operator to work for long periods without unnecessary interruptions.

The 4.6 litres of water in the boiler and supply tank produce about 6000 litres of steam, which is sufficient for up to 5 hours of uninterrupted operation. As the supply tank is not under pressure, it is possible to top up with water at any time without having to wait for the unit to cool down.

This robust unit comes with a wide range of standard accessories for versatile uses in kitchens and sanitary areas, cleaning hard and resilient floor coverings, windows, garden and home furniture. Hot steam removes soiling fast and effectively without chemical cleaners.

A comprehensive line of special accessories, including e.g. a wallpaper stripper, extends the number of possible applications.

Great importance is attached to user safety:

The housing of the DE 4002 is splash-proofed. Extra-low voltage in the handle with only 12 V. The unit switches off as soon as the user let go of the handle. An optical and acoustic indicator warns the operator when water level is low.

The 2.7 metre steam hose permits overhead operation without lifting the unit. Steam feed is controlled directly on the trigger gun.

A smooth-running double castor at the front and two large back wheels ensure stability. Nozzles, cloths and other accessories are neatly accommodated on the unit so that they are ready for use at all times.

---

### Application

Universal steam cleaner for professional applications.

Environmentally-friendly, thorough cleaning and maintenance with hot steam. The ideal cleaner for floors, tiles, machines, radiators, upholstered furniture, toilets and cars.

---

### Features & Benefits

\* 1 double swivel castor, 2 block wheels:

Follows user smoothly, runs over thresholds, very manoeuvrable and steady stand

\* Ergonomical carrying handle and protective edge:

Easy to carry, safes walls, furniture and the unit from unwanted knocks

\* Extensive professional accessories:

A tool for every cleaning job

\* Fully insulated steam boiler from special aluminium alloy:

Keeping the heat, rust proof

\* Infinitely variable steam control:

Best steam volume for every use

\* Large capacity, effective filling quantity of 2.4 litres:

Optimal steam development for long working operations

\* Magnetic valve control:

Steam supply is controlled over the On/Off switch on the gun

\* Operating and control functions:

On/off switch for heating and steam supply. Indicator lights for heating and low water. Easy to overlook arrangement of control, easy handling and constant control of operation condition

\* Patented safety with overpressure valve:

Can not be opened when unit runs with pressure

\* Pressure switch control:

Switches the heating spirale off when the max. pressure is reached

\* Reset (Service) button for the calcination:

Reset of the calcination control indicator, restart of the service period

\* Service control indicator (calcination):

Automatic calcination control, when the indicators lights up the unit has to be decalcified

\* Spare tank:

Can be refilled during working operations

\* Splash-proofed housing (IPx4):

High safety standard

\* VAPOHydro-Regulator:

Infinitely variable control to regulate the wetness of steam

\* Water shortage indicator and temperature limiter:

Optical and acoustic warning signal, heating system switch-off
