

Machine for basic and maintenance cleaning of escalators and travelators with a performance of 2-3 escalators/travelators per hour.

Standard accessories:

- Cleaning brushes
- Pick-up brushes
- Mains operation
- Suction motor 800 W

Order no.: 1.310-109.0

**Technical data**

Working width mm	470
Working width, brush (mm)	470
Working width, vacuum (mm)	470
Working height (mm)	-
Tank fresh/dirt water (l)	35/35
Container capacity	-
Brush rotation speed (rpm)	870-1090
Power rating brush (W)	1100
Suction motor (W)	800
Sound pressure level (dB(A))	75
Voltage (V)	230
Frequency (Hz)	50
Weight (kg)	90
Dimensions (L x W x H) (mm)	1200x670x1100

Details

Description

Cleaning with the BR 47 35 esc is performed with the escalator or travelator running. The machine is positioned at the bottom of the escalator. Special nozzles spray the cleaning solution onto the scrubbing brushes, which then apply it to the treads. (Treads must move away from the machine.) Dirty cleaning solution is vacuumed away again in the same operation. This is assisted by pick-up brushes which convey the solution to the suction nozzles. The shape of the brush head and the central brush motor allow the brushes to reach and clean the outermost grooves in the tread. A centring skid in the middle of the brush head keeps the machine in alignment during the cleaning process. The BR 47 35 esc is suitable for many different makes of escalators and travelators. Four different sets of combs are available to suit most makes. They engage in the tread grooves to provide a seal between the machine and the treads for efficient pickup.

Application

The BR 47 35 esc can be used for heavy-duty and maintenance cleaning of escalators and travelators.

Features & Benefits

Brush head with 2 cylindrical brushes for cleaning and dirt receptable, cleaning near to edge on left and right side, drive in the middle of the machine

cleaning at the right and left side until the outer groove

foot pedal for pressing on the brush head on the escalator with integrated dead man's switch

Safe through automatical swith-off if foot pedal is let off

small dimensions, compact design

comfortable working with a large area performance

Steel frame powder coated

Easy transport, also in a van

Accessories

Accessories for BR 47/35 ESC

Guiding rail, standard

Order no. 5.032-932.0
